

※Do not open the housing, otherwise  
waterproof function will not be guaranteed.

## IR-10

# Outdoor Infrared Illuminator-10M

### ● Features

- An effective way of discreetly illuminating an area where monochrome camera are operating in the dark
- Detecting in the place without light and automatic CDS control light-sources sensor for 24-hour detecting and monitoring
- Weatherproof aluminum housing for both indoor or outdoor use
- Allows for an effective range of up to 10M under optimum conditions

### ● Specifications

|                        |  |
|------------------------|--|
| Input Voltage          | :DC 12V, 450mA (+/-10%)                            |
| Output Voltage         | :DC 12V  |
| Distance               | :10 Meter (The distance base on average equipment) |
| View Angle/Beam Spread | :45° / 30°   |
| Power Consumption      | :2.0 Watts   |
| Power On               | :CDS Auto Control                                  |
| LED                    | :28 unit Infrared LED                              |
| Window                 | :φ39mm Heat-Resisting Glass                        |
| Status                 | :Under 10 Lux by CDS                               |
| Wave                   | :850nm   |
| Water Resistance       | :IP 68   |
| Construction           | :Aluminum, with original anodized finish           |
| Operation Temp.        | :-20°C to +60°C                                    |
| Dimensions             | :φ49X60(L) mm                                      |
| Weight                 | :175g (0.39 lb)                                    |
